

Local Property Tax (LPT) Statistics

(Preliminary – 5th February 2015)

The statistics in this release are based on preliminary analysis of returns filed and other LPT related information. Work on refining the LPT Register is ongoing and consequently the data included are not final data and a certain amount of estimation has been required.

Updates to the statistics below will be provided in due course.

LPT Exchequer Receipts (including payments of Household Charge)

LPT receipts in 2014 are €491m and €94m in January 2015.

2013 LPT

The overall LPT 2013 compliance rate is estimated to be 95%.*

This is based on 1.65m properties returned, a further 0.01m properties where exemptions or deferrals are in effect, 0.15m Local Authority owned (or similar) properties, 0.01m properties not returned but where payments have been received and 0.03m properties for which mandatory deduction at source was applied.

2014 LPT

The overall LPT 2014 compliance rate is estimated to be 95%.*

This is based on payment instructions rolled over from 2013 for 0.31m properties (phased payments and deferrals/exemptions), new instructions received for 1.34m properties for 2014, 0.04m properties for which mandatory deduction at source was applied and 0.15m Local Authority owned properties.

2015 LPT

Pre-payments of €39m for 2015 were received by year end 2014, total collection for 2015 is €123m at end January 2015.

The LPT 2015 compliance rate is estimated to be 84% currently.*

This is based on payment instructions rolled over from 2014 for 0.56m properties (phased payments and deferrals/exemptions), new instructions received to date for 0.86m properties for 2015, 0.04m properties for which mandatory deduction at source rolled over, 0.03 work items, 0.01m properties where the owner has requested a new property ID and PIN in the last week and 0.13m Local Authority owned properties that are returned to date.

Household Charge Payments made to Revenue

Revenue took over responsibility for Household Charge (HHC) collection from July 2013. Since then, around €41m of HHC arrears has been paid to Revenue (€2m in 2013, €36m in 2014 and €3m to date in 2015). Approximately 269,000 additional properties are now HHC compliant since 1 July 2013, including about 44,500 mandatory deduction at source cases and 7,000 deferrals. In total, around 159,000 items of correspondence and approximately 142,000 telephone contacts relating to HHC have been handled by Revenue.

LPT Compliance – Initial Phase Statistics

212,000 compliance letters issued for LPT 2013 and around 70,000 issued for LPT 2014. Approximately 29,500 mandatory deductions from wages/pensions are or were in operation for 2013 LPT and about 38,300 for 2014 LPT. These figures can fluctuate as property owners regularise their affairs.

Compliance activity in relation to the self-employed and companies includes around 14,000 tax clearance requests refused and approximately 18,800 income tax and 100 corporation tax surcharges applied. In addition, there have been around 800 referrals to the Sheriff in respect of LPT and over 7,300 valuations have been increased arising from a combination of self-correction and Revenue challenges.

* The compliance rates are calculated on an expected Register of 1.95m properties. Due to rounding, the compliance rates may not match when estimated from total figures above. The expected Register numbers are extrapolated from Central Statistics Office Census 2011 information. Work is ongoing to validate the Register.

LPT 2015 – Local Adjustment Factor

Fourteen Local Authorities availed of the opportunity to vary the rate of LPT, covering 1.1m properties, and advised Revenue of their decision by 30 September 2014. Revenue has made the necessary changes automatically for LPT 2015. The estimated impact of the variations on LPT yield is a reduction of €45m approximately.

The table below shows a range of LPT payment amounts for 2015 after the application of the Local Adjustment Factors for LPT 2015.

“No Change” implies that current LPT rates will continue to apply: 0.18% on valuation bands up to €1m, 0.25% on the value over €1m.

* For 2013, includes properties returned (1.65m), a further group of properties where exemptions or deferrals are in effect (0.01m), Local Authority owned properties (0.15m), properties not returned but where payments have been received (0.01m) and properties where mandatory deduction at source (0.03m) has been applied.

For 2014, includes rollover instructions (0.31m), new instructions (1.34m), Local Authority owned properties (0.15m) and properties where mandatory deduction at source (0.04m) has been applied.

For 2015, includes rollover instructions (0.56m), new instructions (0.86m), Local Authority owned properties returned to date (0.13m), properties where the owner has requested a new property ID and PIN in the last week (0.01m), work items (0.03m) and properties where mandatory deduction at source (0.04m) rolled over.

** The compliance rate compares the number of properties returned against the expected Register of 1.95m extrapolated from CSO Census information.

*** LPT collected for 2013 includes around €242m received during 2013 and €20m in 2014. This includes amounts paid by Local Authorities in respect of properties they own, payments collected through mandatory deduction at source and payments of around €2m in Household Charge received during 2013.

LPT collected for 2014 includes around €76m received during 2013, €432m in 2014 and €10m in 2015. This includes amounts paid by Local Authorities in respect of properties they own, payments collected through mandatory deduction at source and payments of around €36m in Household Charge received during 2014.

LPT collected for 2015 at end January 2015 includes €39m in prepayments received in 2014 and €3m in Household Charge received during 2015.

Local Authority Analysis – Mandatory Deduction at Source

Mandatory deduction at source for LPT has been applied for approximately 29,500 properties for 2013 LPT and 38,300 properties for 2014 LPT and 2015 LPT. In addition, mandatory deduction has applied to 44,500 properties for Household Charge.

These figures can fluctuate as property owners regularise their affairs.

Analysis is preliminary and there is an element of estimation in particular with regard to the distribution of numbers by Local Authority.

* The exemption amounts are based on claims made in returns and will be subject to certain verification checks. In addition, the full effects of exemptions are not reflected in the statistics as, where an exemption was claimed, the property owner was not always required to value their property.

** The LPT Declared amount includes declared amounts from returns filed to date, deferred amounts and amounts due on foot of instructions sent to employers and pension providers to collect LPT by way of mandatory deduction at source.

Valuation Bands – Based on Returns Filed

This analysis is preliminary and there is an element of estimation with regard to the distribution of properties by valuation band. The table shows the distribution of the 1.65m properties for which returns are filed to date for 2013. The 0.15m Local Authority owned properties are excluded, as are properties not returned but where exemptions or deferrals are in effect (0.01m) and properties where mandatory deduction at source has been applied (0.03m).

Valuation Bands – Changes Compared to the Revenue Estimate

Approximately 42% of property owners self-assessed the same LPT valuation band as the Revenue Estimate and 58% of property owners self-assessed a different LPT valuation band compared to the Revenue Estimate. 44% returned a lower valuation band than the Estimate: 29% reduced by 1 band, 10% by 2 bands and 5% by 3 or more bands. 14% returned a higher valuation band: 7% increased by 1 band, 3% by 2 bands and 4% by 3 or more bands.

The table below compares for each Local Authority the change in number of properties by LPT valuation band returned under self assessment against the Revenue Estimate. This analysis is preliminary, there is an element of estimation with regard to the distribution of properties by valuation band and by Local Authority. The table shows the distribution of the 1.65m properties for which returns are filed to date for 2013 and the majority of the 0.15m Local Authority owned properties.

Valuation Bands – Self-Correction

Self-correction of valuations can be done through the LPT online application on the Revenue website by revising the original valuation band/valuation declared in the 2013 LPT Return at 1st May 2013.

Since returns were filed, there have been over 7,300 properties where the owner has opted to self-correct upwards their property valuation band or following Revenue challenges. Included in this figure are self-corrections made in the context of property sales, where the LPT position is fully regularised before the property conveyance is completed.

The table below shows the breakdown of all self-corrections by the number of bands by which the valuation was increased.

Number of Bands Increased	Properties (%)
1	51.2
2	28.0
3	11.0
4	5.1
5+	4.7
	<i>100</i>
